

AUSTRALIA NATURAL PRODUCTS

Add: 19 First Avenue, Rodd Point, NSW 2046, Australia

Tel: +61 452 101 623

Email: [australianatural.au@gmail](mailto:australianatural.au@gmail.com)

Website: www.australianatural.com.au

(In Accordance with Regulation (EU) No. 1907/2006 and OSHA (US) 29 CFR 1910.1200 and 49 CFR)

Product: Cassia Bark Oil

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier:

Product name: Cassia Bark Oil

Chemical name / Botanical name: Cinnamomum cassia (Cinnamon) Bark Oil

CAS: 8007-80-5 (or 84961-04-6)

EC Number: 284-635-0

EC REACH Registration number: -

Index No / Inventory Num.: -

1.2 Usage:

This product is intended for use as an ingredient in the manufacturing of mixtures, including fragrance, flavorings, aromatherapy, and related industrial applications. Strongly discouraged: Not intended for direct ingestion. Avoid use by the general public except where appropriately formulated and labelled.

1.3 Details of the supplier:

Australia Natural Products

19 First Avenue, Rodd Point, NSW 2046, Australia

Email: info@australianatural.com.au

Tel: +61 452 101 623

1.4 24 Hour Emergency telephone number:

National Poisons Information Centre: 13 11 26 (Australia)

Section 2: Hazard Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 (CLP):

- Flammable liquid, Hazard Category 3

- Acute toxicity (Oral), Hazard Category 3
- Acute toxicity (Dermal), Hazard Category 4
- Skin corrosion/irritation, Hazard Category 2
- Serious eye damage/eye irritation, Hazard Category 1
- Skin sensitization, Hazard Category 1
- Hazardous to the aquatic environment — long-term hazard, Category 2

2.2 Label Elements

EC Number: 284-635-0

Cassia Bark Oil

Signal word: Danger

Hazard Statements:

- H226: Flammable liquid and vapour.
- H301: Toxic if swallowed.
- H312: Harmful in contact with skin.
- H315: Causes skin irritation.
- H317: May cause an allergic skin reaction.
- H318: Causes serious eye damage.
- H411: Toxic to aquatic life with long lasting effects.

Precautionary Statements:

- P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P261: Avoid breathing vapours.
- P270: Do not eat, drink or smoke when using this product.
- P273: Avoid release to the environment.
- P280: Wear protective gloves/protective clothing/eye protection/face protection.
- P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor.
- P302+P352: IF ON SKIN: Wash with plenty of water.
- P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310: Immediately call a POISON CENTER/doctor.
- P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
- P391: Collect spillage.
- P403+P233: Store in a well-ventilated place. Keep container tightly closed.
- P501: Dispose of contents/container in accordance with local regulations.

2.3 Other Hazards:

No additional hazards identified from the information available.

Section 3: Composition/Information on Ingredients

3.1 Substances

Concentration range of the constituent (% weight/weight)	EC Number / Registration Number	Cas number	Chemical Name
100%	284-635-0	8007-80-5	Cinnamomum cassia Bark Oil (Rich in Cinnamaldehyde, higher concentration)

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Consumption: If swallowed, rinse mouth with water. Do NOT induce vomiting. Immediately call a POISON CENTER/doctor and show this SDS.

Eye contact: Rinse cautiously with plenty of water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately seek medical attention.

Inhalation: Remove person to fresh air and keep at rest. Seek medical attention if symptoms persist.

Skin contact: Remove contaminated clothing. Wash skin thoroughly with plenty of water and soap. Seek medical attention if irritation or rash occurs.

4.2 Most important symptoms and effects, both acute and delayed:

Skin and serious eye irritation, and allergic skin reaction may occur. Toxic if swallowed and harmful in contact with skin.

4.3 Indication of any immediate medical attention and special treatment needed:

Treat symptomatically. No specific antidote known.

Section 5: Fire Fighting Measures

5.1 Extinguishing media:

Recommended: Foam, dry powder or carbon dioxide. Water spray may be used for cooling. Do not use a full water jet directly on the burning product.

5.2 Special hazards arising from the substance or mixture:

Flammable liquid and vapour. Vapours may form explosive mixtures with air and may travel to an ignition source.

5.3 Advice for firefighters:

Closed containers may build up pressure at elevated temperatures. Avoid inhalation of fumes or vapours. Use appropriate respiratory protection and protective equipment. Prevent fire-fighting run-off from entering drains or water courses.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

Eliminate all sources of ignition. Do NOT smoke. Avoid breathing vapours and contact with skin and eyes. Wear appropriate gloves and eye/face protection. Ensure adequate ventilation.

6.2 Environmental precautions:

Avoid release to soil, sewers, drains and watercourses.

6.3 Methods and material for containment and cleaning up:

Contain the spill. Absorb with inert, non-combustible material such as dry sand, earth or vermiculite. Collect into suitable labelled containers for disposal. Ventilate the area and wash the spill site after material pickup is complete.

6.4 Reference to other sections: See Sections 8 and 13.

Section 7: Handling and storage

7.1 Precautions for safe handling:

Keep away from heat, sparks, flames and other ignition sources. No smoking. Avoid contact with skin and eyes and avoid breathing vapours. Handle in accordance with good industrial hygiene and safety practice.

7.2 Conditions for safe storage, including any incompatibilities:

Keep the product in the original container, tightly sealed, in a cool, dry and well-ventilated area, protected from light and heat. Store away from ignition sources and incompatible materials.

7.3 Specific end use(s):

Not available beyond the identified uses.

Section 8: Exposure controls/personal protection

8.1 Control parameters

No specific occupational exposure limit has been established for the product as a whole. Control exposure to vapours and maintain good ventilation.

8.2 Exposure controls

Engineering Controls-Ventilation: Areas where the product is handled and stored should be adequately ventilated.

Respiratory Protection: Use suitable respiratory protection where ventilation is inadequate or when vapour concentrations may be elevated.

Skin Protection: Avoid skin contact. Compatible chemical-resistant gloves are recommended.

Eye/Face protection: Chemical safety goggles and face shield are recommended.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance: Liquid

Color: Yellowish-brown to dark brown / reddish-brown

Odor: Characteristic strong, warm, spicy cinnamon bark odor

Boiling Point: Not determined

Relative density: 1.040 – 1.065 g/cm³ at 20 °C

Refractive index: 1.600 – 1.614 at 20 °C

Flash Point: Approximately 88–95 °C (closed cup)

Solubility in water: Insoluble

Section 10: Stability and reactivity

10.1 Reactivity: No significant reactivity hazards under normal conditions.

10.2 Chemical stability: Stable under recommended storage and handling conditions.

10.3 Possibility of hazardous reactions: No hazardous polymerization expected under normal conditions.

10.4 Conditions to avoid: Heat, flames, sparks, direct sunlight and other sources of ignition.

10.5 Incompatible materials: Strong oxidizing agents, strong acids and strong alkalis.

10.6 Hazardous decomposition products: Carbon monoxide, carbon dioxide and other unidentified organic compounds may be formed during combustion.

Section 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity: Toxic if swallowed and harmful in contact with skin.

Skin corrosion/irritation: This substance meets the criteria for classification as Skin Irritation Category 2.

Serious eye damage/irritation: This substance meets the criteria for classification as Serious Eye Damage Category 1.

Respiratory or skin sensitization: This substance meets the criteria for classification as Skin Sensitization Category 1.

Germ cell mutagenicity: No data indicating classification available.

Carcinogenicity: No data indicating classification available.

Reproductive toxicity: No data indicating classification available.

STOT-single exposure: No data indicating classification available.

STOT-repeated exposure: No data indicating classification available.

Aspiration toxicity: Data not formally classified as aspiration hazard under standard criteria, though handle with extreme care.

Section 12: Ecological information

12.1 Acute aquatic toxicity: Data not determined for the complete product.

12.2 Persistence and degradability: Data not available.

12.3 Bioconcentration Factor: Data not determined.

12.4 Mobility in soil: Data not available.

12.5 Results of PBT and vPvB assessment: Not determined.

12.6 Other adverse effects: Toxic to aquatic life with long lasting effects. Do not allow the material to enter streams, sewers or other waterways.

Section 13: Disposal considerations

13.1 Waste treatment methods

Container disposal: Dispose of containers and residues in accordance with applicable local, state and national regulations. Do not reuse contaminated containers.

Disposal conditions: Avoid disposal to drainage systems or the environment. Dispose of contents/container through an approved waste-disposal facility.

Section 14: Transport information

14.1 International Carriage of Dangerous Goods by Road (ADR)

UN No.: UN3082

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
(Cassia Bark Oil)

Packing Group: III

Class: 9

Label: 9

14.2 Sea Transport (IMDG)

UN No.: UN3082

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
(Cassia Bark Oil)

Packing Group: III

Class: 9

Marine Pollutant: Yes

EmS: F-A, S-F

Label: 9

14.3 Air Transport (ICAO/IATA)

UN No.: UN3082

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.
(Cassia Bark Oil)

Packing Group: III

Class: 9

Label: 9

Section 15: Regulatory information

15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture:

Prepared with reference to Regulation (EC) No 1272/2008 (CLP), Regulation (EC) No 1907/2006 (REACH), OSHA 29 CFR 1910.1200 and applicable 49 CFR requirements.

15.2 Chemical safety assessment:

Not available.

Section 16: Other information

Key literature references and sources for data:

1. Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures.
2. Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
3. Occupational Safety and Health Administration (US), 29 CFR 1910.1200, Hazard Communication Standard.
4. 49 CFR, Hazardous Materials Regulations.

5. Publicly available supplier SDS data for Cassia Bark Oil (*Cinnamomum cassia*), including classification and physical-property references.

Disclaimer: *Information in this SDS is based on available published sources and is believed to be accurate. No warranty, express or implied, is made and the company assumes no liability resulting from the use of this SDS. Each user of this material needs to evaluate the conditions of use and design appropriate protective measures to prevent employee exposure, property damage or release to the environment and must determine the suitability of this information for the intended application.*
